Ms. Butler is currently the Associate Director for *Beautiful: The Carole King Story*

To Whom It May Concern:

I write to recommend Allison Bibicoff as an assistant. I was fortunate to have Allison as my assistant director on a production of *A WRINKLE IN TIME* at South Coast Repertory. Allison proved to be an invaluable part of the process. As an AD, she was sharp, capable and prepared to undertake any and all necessary tasks to move the production in a positive direction.

Over the course of our rehearsal period, Allison was always professional and extremely sensitive to appropriate boundaries. I felt fully supported at all times—whether the moment required a quick coffee errand or giving notes in tech to award winning actors.

In addition to being an excellent assistant, Allison's confidence and ease at communicating with actors insured that she was very much a respected presence in the room. I always found it illuminating to plumb her thoughts regarding performances and her background as a choreographer means her instincts about stage picture are excellent.

I am certain that Allison's creativity, charisma, and her desire for artistic excellence will pave the way for an exciting career and it is my pleasure to recommend Allison without hesitation. Allison will be a benefit to any rehearsal process.

Sincerely,

Shelley Butler
